

WATER BOWSER DISTRIBUTION SCHEDULE

OUR ESTEEMED CUSTOMERS, RESIDENTS AND STAKEHOLDERS TAKE NOTE OF THE WATER BOWSER DISTRIBUTION SCHEDULE WHICH IS AS FOLLOWS.

Residents, Customers and Stakeholders are advised that the water Bowser will take a maximum of (one) 1Hr per station so as to allow equitable distribution of water to all the needy customers.

We appeal to all the residents, customers and stakeholders to exercise extreme caution when crossing the roads during the process of accessing water points in order to avert unnecessary accidents.

We encourage all waterusers to ensure that their Containers **MUST** be Clean to avoid water contamination. Customers, Residents and Stakeholders be guided that the water bowsers will follow the sequence tabulate in the schedule to ensure smooth water distribution process at all the designated points.

Institutions, schools, health centres, old people's homes and funerals should ensure that their containers are ready by the time of receiving their water bowser, this will enable smooth flow of the process and reduce the time taken at one point.

During this period, funerals will take precedence and please be advised that the water Bowser will only fill containers available at the time. We also encourage private players with water bowsers to draw water at our New Castle Fire Hydrant. The Engineering department staff will help with disinfection of every bowser before it is allowed to draw water.

The water bowser distribution schedule will run from 08:00hrs to 17:00hrs.
